

■ GÉNIAPLEX

Hypodermic plexiglas syringes for professionals.

- Manufactured from a solid block of plexiglas that is treated to avoid deformation and cracking.
- Stainless steel plungers, rods and handles and chromium-plated Zamac caps.
- Flat, bevelled silicone washers are extra strong, water resistant and nonstick, providing a perfect washer and smoothly sliding plunger.
- Sterilisation: resistant to boiling water and autoclave up to 125°C (30 min - 1.3 bars), but not to alcohol.
- No contraindication for use with standard pharmaceutical products.
- Can be entirely disassembled.
- Black indelible graduations.
- Nickel-plated brass bibloc Luer-Lock hub.

Supplied in a polyethylene bag with instructions for use, 6 extra washers and a 10 mL silicone oil bottle.

On demand:

- syringes with a screw rod,
- Recordfix and Rotlauf Luer-Lock monobloc hubs.

IDEAL FOR
INTENSIVE USE

Code	Model	Capacity	Washer	Graduation	Hub

■ GÉNIAPLEX 300 ML

Hypodermic plexiglas syringe for professional use.

- Extruded plexiglas barrel.
- Bottom, cap and plunger made of polished aluminium.
- Aluminium rod and handle made of unbreakable and non-deformable plastic.
- Can be entirely disassembled.
- Flat and bevelled silicone washer.
- Can be converted into a drenching syringe.
- Sterilisation: resistant to boiling water.
- Black indelible graduations.
- Concentric Bibloc Luer-Lock hub.
- To convert into a drenching syringe, replace the hub and adapter with a 10 mm diameter long nozzle (code 187040 or 186052 p.138).

Supplied in a polyethylene bag with an extra washer and a 10 mL silicone oil bottle.

On demand: Recordfix and Rotlauf Luer-Lock monobloc hubs.

	Code	Model	Capacity
A	104850	Hypodermic syringe	300 mL

SPARE PARTS

	Code	Model
B	189625	Reducer with needle hub seal

■ LONG GÉNIAPLEX

Extra-long hypodermic syringes, same type as Géniaplex syringes for professionals.

- Identical to Géniaplex syringes.
- Total length 65 cm.
- Rigid extension made of anodised aluminium.
- Dose adjustment by rotating the extension screw that passes through the cap of the syringe.
- Dose unlocking by unscrewing the locknut.
- Monobloc concentric Luer-Lock hub.

On demand:

- others lengths available,
- Recordfix and Rotlauf hubs.

Code adjustable	Code non-adjustable	Model	Capacity	Washer	Graduation
